

Where do animals like to live?

When it comes to a place to live and eat, different animals need different ages of forest.

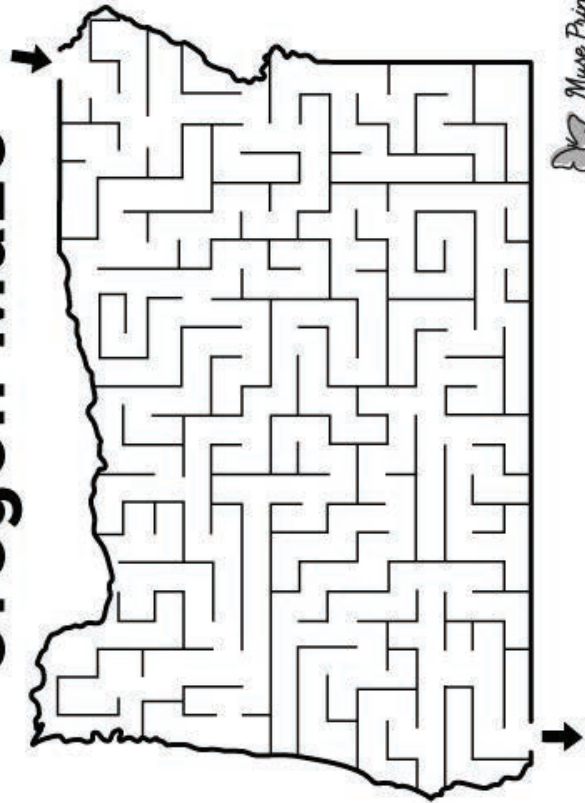

Deer mouse Striped skunk Black tailed deer Snowshoe hare Mountain bluebird Oregon slender salamander Black bear Hoary bat Northern spotted owl

Can you find these animals in the forest they live in?

Oregon Maze

Find the terms listed below in the word search puzzle!

Prairie Schooner: a converted covered wagon used to hold supplies and personal possessions.

Oxen: very sturdy animals needed to pull the wagons for 2,000 miles west.

Independence: this Missouri city was a major starting point for most emigrants.

Oregon Trail: was the main route travelers used to head west.

California Trail: overlapped with the Oregon trail until Idaho, where it headed south.

Mormon Trail: was the other major route of westward migration, usually starting in Illinois.

Whitman: Marcus and Narcissa Whitman were the first to travel to Oregon with a covered wagon in 1836. Dr. Whitman also helped the Great Wagon Train make it to Oregon in 1843.

Astor: Astor Overland Expedition was the first expedition from St. Louis MO to the mouth of the Columbia River, after Lewis and Clark blazed a trail.
